Why use an Insurance Adviser?

Here at **Insurance Advice & Advocacy** we know the Insurance market. We know about new insurers, new insurance products and how to fine-tune insurance policies to suit the individual needs of our clients. Individual insurers are often restricted to the types of insurance policies they sell. They may not sell a product that is best for you. It's why we tailor your insurance program just for you. We can also assist with claims by helping prepare the paperwork and lodge your claim with the insurer. We also know who to talk to ensure your claim gets processed as quickly and effectively as possible.
